(2) (Cont'd)

Limited Usage - A limited amount (Allowance) of message rate or measured rate calling as appropriate. For all calling over the allowance, additional rates per call apply.

(3) Charges for calls to extended calling areas are as specified in the Extended Area Calling Tariff.

(4) Charges for calls to the **Community Choice PlanSM** Service exchanges or zones are as specified in the **Community Choice PlanSM** Service tariff.

e. Determination of Rate Classes

(1) Each exchange or zone is assigned to three rate classes for the application of exchange service rates according to the combined total of the number of dial tone lines in its local service area, extended calling area, and **Community Choice PlanSM** Service area. These rate classes are arranged in a rate schedule as shown in C.2. following.

(2) The combined total number of dial tone lines in the local service area, extended calling area, and **Community Choice PlanSM** Service area are computed as follows:

For Flat/Measured Rate Services and Message/Measured Rate Services, the dial tone lines in the local service area of each exchange and zone and in the **Community Choice PlanSM** Service exchange or zone are multiplied by the appropriate distance factors. The dial tone lines in the extended calling area are then added to the dial tone lines as determined preceding for the local service area.

For Measured Rate Services, the dial tone lines in the local service area and the extended calling area of each exchange and zone are totaled. The dial tone lines in the **Community Choice PlanSM** Service area are multiplied by the appropriate distance factors and are added to the total.

(2) (Cont'd)

For message rate hotel and hospital PBX trunks and service for Pay Telephone Lines, the dial tone lines in the local service area, the extended calling area, and in the **Community Choice PlanSM** Service area of each exchange and zone are each multiplied by their appropriate distance factors and then totaled.

- (3) Distance factors are based on airline miles between the rate center of an exchange or zone and the rate center of each of the exchanges or zones in the local service area, extended calling area, and in the **Community Choice PlanSM** Service area as indicated following:

<u>Airline Miles Between the Rate Centers of</u> <u>Exchange or Zones</u>		<u>Distance Factor</u>

- (4) When the Telephone Company proposes to change an exchange or zone from one rate class to another because of an increase or decrease in the combined total number of dial tone lines, notice of the reclassification of said exchange or zone to the proper rate class shall be given by filing revised tariffs with the State Corporation Commission in accordance with the rules and regulations of the State Corporation Commission and the laws of the Commonwealth of Virginia. Such revised tariffs will be filed only when an exchange or zone has exceeded or fallen below its rate class limitation by 5% or when an additional exchange or zone is added to the local service area, extended calling area, or **Community Choice PlanSM** Service area of an exchange or zone, and the new combined total number of dial tone lines exceeds the upper limit of the rate class.
